MOS was at work today. He skinned a sick report on the Sgt's desk & said he was going out sick. Sgt told him to stick around & he refused & left. Didn't follow procedure. Typically, they call sick desk ^{station} unit & cannot to arrange coverages. MOS was working on T.S.

MOS did not go straight home. Cops are at his home waiting for his arrival. They called MOS on his cell phone. They think he picked up & then hung up. Since then, no answer. They are thinking of arresting him but they suspect it is more of a psych. problem. XO of MOS' command (81st) is Capt Lauterborn & request response from 1st. ——— C. J. J. Pys

T/C Capt Lauterborn

MOS doing a 7-3 day tour today, at TS all day. All was fine. He typically keeps to self & doesn't converse much with other than, odd ones today. Nothing seemed out of ordinary.

OPN - he went down to locker room, changed & then put a sick report on Sgt's desk & sd going sick. He wrote that he had stomach pains. Sgt tried to stop him but he left anyway.

Underlying issue - MOS has made allegations against others. Dept's investigation of those allegations started up this week & it snowballed from there. This week, about 4 PO's & 2 civilian people were called down for questioning. MOS goes up to them & asks about it, notifications are in telephone message log so he knows who is going. When they return, he tries to intercept them & get info from them about what he was asked. Today was 1st tour back after RDO's. Not sure what happened today that triggered him to leave like that.

Delegating person, Sgt & Capt L. all left
 him message & asked him to go back to command
 a Lt is at his home. His car is there.
 Landlord said MOS may have been there earlier. Commonly
 hear MOS' footsteps when home. MOS not ~~here~~ here.

- I left a msg on MOS' cell phone. I gave my
 cell # & Capt L's cell phone. I told him that Capt
 said he would just return to his home if he didn't want to
 go to the command. I urged him to go home or call the Capt
 so this could be resolved quickly & easily w/o need
 for a substantial investigation to search for him, or displaying
 active life suspension. Much easier to just resolve it
 quickly & easily now. I explained that anyone is just
 concerned for his safety & they want to make sure he is ok.

- I/c Capt Lauterborn - I urged Capt that I left
 msg on MOS' cell phone as described above. I suggested Capt
 call MOS' father b/c that's the person he is closest to & the
 person who is most likely to know his whereabouts. Capt will
 call w/ his father or hear from MOS.

Still no word from MOS. Capt called MOS' father,
 who also hadn't heard from him. Father "had some issues"
 over phone but eventually understood Capt's point of view &
 concerns. Hoping Father will call MOS & encourage him to go home.
 Capt will go to MOS' home. It's possible he's home but not
 answering phone. (Landlord has some key?) Yes & Capt has it. But
 legal issues & may not have access. Hoping to avoid going
 that route.

addendum to 10/31/09 note of T/C = Capt Lauterborn not upper
1750 hours. Delayed entry made on 10/14/10, when reviewing
folks, the below info was found to not be documented in prior note, but
is clear in U/S' memory. Capt Lauterborn asked if MOS was
suicidal or depressed, because he needed to know how concerned they
should be about MOS' safety given his young family, not money, phone
calls, not knowing when of time but he can hear they etc. I informed
Capt that I last saw MOS at PES on 10/27/09 & at that time
he looked ok & reported being asymptomatic. At no time had he
ever expressed thoughts of suicide, but he also never was alone before
& after the way he was acting on 10/31/09. My assessment of his
suicide risk is only as good as the last time I saw him. My security
happened after that & led him to be so upset that he left work
without permission on leave before the end of his tour, said he had
stomach pains, etc, that I am unable to say with any reasonable
amount of certainty that he is not at risk of self-harm or violent
circumstances. I provided Capt with brief info about reason
MOS was on R/D - that he had significant physical Sx of stress
(morning G.I. Sx, cardiac Sx, etc). Unlikely if MOS was
reporting openly on 10/27/09 when he said all of his Sx went away
w/o Tx, MOS refers to minimize it that he did not want to be on P/R/D,
he was open during initial eval but denied any & all Sx in subsequent
monthly S.E. sessions, when also expressed being upset about being on P/R/D, his report
on 10/31/09 that he had stomach pains seems enough to warrant being with before
end of tour, w/o planning, suggests either the Sx never did go away or
they recurred on 10/31/09 due to his being really upset about security.
It is also possible there was a medical cause for the stomach pain,
but the angry manner in which he left work suggests a psych. cause.

10/27/09 - FIFEMOS

d. explained to MOS that d. called him in immediately upon my return from a 2 wk vacation b/c d. received msg. that his father made a complaint downstream that d. never told MOS the reason why he is on R/D. Since we had discussed that in detail at his initial & subsequent visits, d. emphatically expressed an understanding of how he may not have wanted to tell his father the reason why he was on R/D. To make sure that he has a clear understanding of why he is on R/D, d. again explained in detail that he is on R/D b/c he had significant physical manifestations of stress that were causing much discomfort & would benefit from treatment & further monitoring.

MOS said he no longer has these physical signs of stress even though he is still facing the same stresses as before, while on R/D, he is at least deal of PCT daily with complete all day long - not stressful to him, but not easy, less stressful (in his opinion) as regular F/D work.

d. again reviewed stress mgmt & relaxation training so the next time he is faced with new increased stresses, he won't have a recurrence of the chest pain, headache, insomnia, upset stomach, etc. that he had for several months when he 1st came to PES. He said he bought both books d. recommended & started reading them, but not that helpful since not much he didn't know before. He thought the Burns book was kind of corny & preferred the Ellis book. He ~~said~~ bought both books to today's ^{date} ~~date~~ & had both made it through, ^{but} not very far into them (so hasn't read much of them). He said he called a few people d. recommended but none felt a extra & one wanted \$400/hour ^{& asked if he had any other options} d. told him d. could help him find an Action Therapist & to sure they must cover CBT for physical sigs of stress. He said he would call later to his provider to name of his exact HMO plan so d. can make sure the provider are in-network. MOS expressed an appreciation for the assistance,

10/27/09 - T/C to Mos

I informed Mos that I found a number of psychologists in Forest Hills (his preferred location) who accept Aetna HMO & specialize in CBT, ARI, & Stress Mgt. He does not have a private pay machine so I offered to mail it to him. I also gave him the Aetna behavioral health care website for further information as well as a list of self-help assessment tools.

2035 - T/C - Capt Lauterborn

Made entry using key b/c landlord heard footstep. He said he was sleeping whole time but not possible with the amount of banging & yelling they were doing outside before going in with the key to make sure he was ok. Not sure what scene

He admitted that Sgt called him back & denied him the sick leave, but that he left the command anyway. Capt explained that they were concerned he was sick & they didn't know why he left in such a huff that way.

MOS sd "why would you no one was ever worried about me before." He refused to go to command & kept saying he didn't feel well. Called ambulance. EMT's took his vitals.

BP very high. 170/120.

EMT wanted him to go to hosp. b/c BP so high. MOS opt'd then MOS agreed but then refused. He ran back inside or had to be strapped down & forcibly taken to Brazo Hospital. (MOS ~~sd~~ said he wanted to sleep at home & would go to ER on over the next day, but EMT couldn't stand that b/c BP so high. Chief Melina was there & supervised him.

MOS was very disrespectful in every way. Chief gave him so much room but MOS out of control & total disrespectful supervisor.

Whole time talking to father on cell phone. Could hear father yelling. (at MOS or to him about situation?) Not at MOS. Father angry about MOS's handling of this & other situation & MOS. Father doesn't have accurate info on what happened.
